### EDUCATION

#### Universitas Terbuka

2014 - 2018

*Undergraduate of Management*

#### Arkademy

2022

*Fullstack Web-developer*

### EXPERIENCES

#### **Orionscope**

*Software Engineer - Frontend*

**Dec 2022 - Current**

- Developed 6 website projects during my tenure, utilizing high-core technologies such as Next.js and TypeScript, alongside low-code solutions like WordPress. Contributed to cross-functional teams, enhancing Orionscope's software initiatives through a blend of expertise in diverse technologies.
- Spearheaded the optimization of Universitas Pelita Harapan's website as our regular client, significantly improving its website speed, accessibility, and security.

#### **Emori Creative**

*Frontend Developer*

**Nov 2022 - May 2023**

- Established and optimized the website for Surabaya-based company, SurabayaSatu.co.id, enhancing both speed and security measures.

#### **Lucy Teknologi, CV**

*Frontend Developer*

**Aug 2022 - Nov 2022**

- Designed and developed the company website using Vue.js and TypeScript, including seamless integration with a secure payment gateway.

### SELECTED PROJECTS

- **bfl-center.com** - 2023 - WordPress-based website specializing in medical psychology services for children, young individuals, and families.
- **waebajo.id** - 2023 - Created a dynamic platform enabling users to effortlessly book trips. Leveraged modern technologies such as Next.js, Tailwind CSS, and TypeScript.
- **ana.co.id** - 2023 - Crafted and managed the online presence for a heavy machinery company in **South Kalimantan**. Employed cutting-edge technology, including Next.js, Tailwind CSS, and TypeScript, to deliver a seamless and efficient digital experience.
- **unbox.uph.edu** - 2024 - Mixed based website using Wordpress for form & using html, javascript for it core website, an UPH EDU fun games.
